## Midnight Despatches.

Paris, June 4.—No one is allowed to leave the city after six o'clock in the evening, from which hour all the gates are closed and every patrol of the streets is reinforced. The commissioners appointed for the re-organization of the army have decided in favor of the compulsory service of all Frenchmen against the advance of Prussian troops who recommended the restoration of the law of 1832.

Many stragglers including Englishmen have arrived in Paris, and the arrivals of foreigners are increasing daily.

The "Figaro" estimates that the number of men who have been in the late insurrection and who have not yet been identified and arrested is 60,000. The police is in constant danger from violence at their hands.

The Duke D'Aumale has arrived at St. Germain. The executions at Versailles are still very numerous.

All the Paris journals are discussing the question as to what shall be done with the Orleans Prince. Some apply for his pardon and others ask them to remain in their seats in the Assembly.

Murillo, in *La Liberté*, demands the establishment of a liberal republic in the model of the United States or Switzerland.

Pascal Grosjean was arrested to-day in Paris. Active service is now making for Paris, who is believed to be concealed in the city.

The report that a motion will be made in the Assembly to prolong M. Thiers in power is confirmed.

A letter from Father Hyacinthe in the *Globe* acknowledges the sympathy felt for France and advises the value of the Latin race as the bulwark of Europe is menaced by the propensities of Germany and Slavics. The acts of the Commune were the result of the neglect of God by the people. The *Figaro* is in favor of the working man. The second Empire treated as a question in the spirit of the Commune instead of seeking to solve them by the law of the people. It moreover imposed a prolonged military on soldiers, and isolated the bourgeoisie of the country. The church also failed in its mission. It was too much occupied with domestic questions, and too little with the instruction of its flock. Father Hyacinthe concludes:

"Paris is a shame. Work people have no God, or at it is impossible for them to believe in one. Let rates with whole heart and brain consider the problem and labor for the restoration of France to faith, prosperity and justice."

BREXIT, June 4.—Diplomatic relations between France and Germany are shortly to be resumed. It is probable that the Marquis de Gontaut will be appointed French chargé d'affaires at Berlin, and Count Von Hatfield German representative at Versailles.

## GREAT BRITAIN.

The Joint High Commission. Welcome to Gen. Schenk.

LONDON, June 3.—Earl de Grey, Stafford Newcome and Lord Tenterden, of the British Commission, and the Hon. Robert C. Schenk, Minister from the United States, arrived at Liverpool to-day on the Cunard steamship *Ocean* from New York. Mr. Schenk upon his landing presented a letter with an address of welcome by the Liverpool Chamber of Commerce. He replied in a speech expressive of gratification at the courtesy shown by the Chamber, and a hope that the kind relations existing between the mother country and his native land would be perpetual.

**Morning Despatches.** IT-LY. Increase of Import Duties.

FLORENCE, June 4.—The Lower Chamber has approved the increase of import duties on wheat and flour.

**American Despatches.** Flood at New Orleans. Wheat Harvest in Illinois. Minister to the German Empire. Hall's Arctic Expedition.

NEW ORLEANS, June 3.—That portion of the city west of Galvez Street, and between the old and new canals, is partially flooded with water caused by heavy rains and crevasses in the canals. The Mobile and Texas Railroad from Fort Macon to Bogalusa, about twelve miles, is partially flooded.

CHICAGO, June 4.—The wheat harvest is begun in southern Illinois, earlier than ever before known. The yield is abundant.

WASHINGTON, June 4.—The credentials of Mr. Bancroft as Minister to the German Empire have been sent to him. It has been certified that this gentleman is anxious to return home, but our Government desires him to remain at his post.

NEW YORK, June 5.—Next Wednesday is now set for the departure of the Polar Expedition, which is to be taken by the ship *Albatross*, and the *Albatross* will be taken on the vessel *Albatross*. The crew will be taken on board before the vessel leaves the wharf here, except the Engineer, and his wife and family, who are in Connecticut, and will be taken on board at Brooklyn.

**SOUTH AMERICA.** Revolution in Venezuela. CANADA, Venezuela, May 23.—The revolutionist Herrera has been repulsed, and British forces are advancing on Valencia. The revolution is strong, and it is reported that Balza with a thousand men has joined Herrera.

**Afternoon Despatches.** The Very Latest. DESPATCHES TO 4 P. M.

VERSAILES, June 4.—The probable result of the sitting of the National Assembly to-morrow is causing great excitement. It is believed the decree of exile of the Orleans Prince will be adopted. The newspapers generally disapprove of such a course, which they say will be a step towards the restoration.

Telegraph lines will be in working condition by Saturday next.

LONDON, June 5.—The submarine cable between Singapore and Hong Kong was successfully completed on Saturday. The cable is now in direct telegraphic communication, plus with China.

The discussion in regard to the revolution of the secret treaty before the Senate recalls a story in regard to the London Times. That paper, it said, paid £10,000 for a political secret in the hands of Sir Robert Peel who was then Premier, called a Cabinet meeting as secretly as ever Catherine did, and the meeting before breaking up, resolved to adopt an unreserved free trade policy. The Times, and all the London editors were at their wits end to ascertain the result of the council. Parties in the British Cabinet and Legislature were there, as they are now with ourselves, almost equally balanced on the question of protection or free trade. The question accepted by the Cabinet was, there fore, certain to be adopted by the whole country. The Times gave a column of £10,000 in hand cash, and the lady of it and fortune revealed the secret which she had extracted from her confiding husband. The Times was hailed up for breach of privilege. But the liberty of the press was considered a sufficient defence to the charge.

Mrs. Laura D. Fair, the marchioness of Critchfield, has been sentenced to the death penalty on the 28th of June. The telegram says that after her sentence she maintained her usual composure although she was in a state of mind in the court were much affected.

## Midnight Despatches.

VERSAILLES, June 5.—The Assembly to-day presented an animated appearance. Many nobles occupied seats on the floor, and the galleries were crowded with spectators in anticipation of the great right of the Orleans Prince to seats in the House. Among the distinguished persons present were Prince Metternich, and nearly all the members of the diplomatic corps. Thence to move to the discussion of the discussion. He said he had passed hours in consultation with the members of the committee having in charge the subject, which now engaged the attention of the Assembly. The committee had acknowledged to him that it was impossible for them to come to any agreement to-day and had requested them not to hasten their deliberations. He stated that he was very unwell, and begged that the Assembly would consent to a postponement of the consideration of the grave question at least until Thursday. The committee, he said, favored a simultaneous decision on the verification of the elections of the Orleans Princes, and of the abrogation of the laws of exile against them. The Assembly agreed to an adjournment of the debate.

PARIS, evening, June 5.—Belleville, La Vilette, and Montrouge are still patrolled day and night.

The Deputies in the Assembly from the Departments occupied by the Germans re-proposed to move that the disquieting debate in regard to the position of the Orleans Princes be postponed until the conclusion of a loan and the payment of the war indemnity has freed the country from the Germans.

An address to the Press is circulating in the Provinces. It expresses the hope that regulated France will soon lead an avenging arm to the Heligoland. The document is freely signed.

The prisoners at St. Salpêtré endeavored on Sunday to get possession of some arms. The attempt was discovered and frustrated. Several of the soldiers who shot the prisoners were arrested and immediately sent to Versailles.

There is a rumor which has not yet been confirmed, that Felix Piat was arrested in Paris to-day.

Federalist Lieut. Col. Bourrier committed suicide to-day, just as he was about to be arrested.

There was a serious fire in the Montmartre quarter last night, which is suspected to have been caused by a petroleum bomb.

Arrests continue to be made in all parts of the city.

La Liberté has a report that an attempt has been made to assassinate the German Prefect of Strasbourg, who was fired at from a revolver and wounded.

## SCHOOL TRUSTEES.

Thursday, June 6.  
The Board assembled this evening, pursuant to adjournment.  
PRESENT.—Messrs. McAnany, (Chairman), Shepard, Gies, Sawyer, Wenzley, Humbly and Tennant.  
The minutes of last meeting were read and approved.

A petition was read from the teachers to apportion a sum of money for prizes for deserving pupils at the approaching examinations.

Mr. Gies presented the report of the Finance Committee.

The Local Superintendent handed in reports of teachers as to attendance, &c.  
Mr. Shepard, on behalf of the Committee appointed to procure plans for a new school house in Baldwin Ward, reported that several meetings had been held; plans had been examined, but no action had been taken, and he wished action to be further deferred, as he was led to believe that, from the feeling of the Town Council, the Hospital lot would be acquired by the Board.

The Chairman stated that, regarding the acquisition by the Board of the lot which had been selected as a site for a school house in Baldwin Ward, he had, under the authority of the Board, endeavored to deal with Mr. Sherie Taylor for its purchase.

The gentleman held the property to be worth \$2,000, but he was astonished to find the next day that Mr. John Taylor, who had become the owner, refused to sell on the terms offered. He had therefore appointed an arbitrator by law required, and called upon Mr. Taylor to do the same, which he did. The arbitrators met, and made an award that the property was worth the value of \$1,500. He (Mr. McAnany) had not completed the purchase, as he had been approached by influential members of the Town Council, who informed him that it was probable that the Council would procure a hospital site and sell the old hospital lot to the Board for school purposes. The Committee in this matter, of which Mr. Shepard was Chairman, had met the Finance Committee of the Town Council on Monday afternoon, at the instance of members of the Council. At this meeting, the views of the members of the Committee were freely interchanged. Dr. Hays had given notice of motion to that effect, and had assured him that evening that it would be pressed at the next meeting of the Council, the sentiment of which favored its passage. It was for the Board to say whether they would complete the purchase of the Taylor lot, or await the action of the Council in the matter of the hospital lot.

The subject was allowed to drop, and await the action of the Council.

The report of the Finance Committee was adopted.

The Superintendent stated that the attendance at the schools had been well kept up, and all were progressing satisfactorily. He also announced that he had not deemed it necessary to qualify under the new law, as he was already qualified under the old law.

Mr. Shepard moved that the application of the teachers for money for procuring prizes for deserving pupils, be referred to the Committee on School Organizations with power to act.

Mr. Sawyer seconded the motion, which was carried.

Mr. Shepard moved that when the Board adjourns, it stand adjourned for two weeks. His reason for making this motion was that the Town Council would have met in the interim, and would have disposed of the matter of the Hospital lot. The Board could then take action, as there should be no further delay in the premises.

A register book was ordered to be procured for school No. 1.

The Board then adjourned until the 20th inst.

by the way, perhaps he can  
concoct us as to what Ex-  
tract of Soap means. Well this individual,  
whose ideas of Soap and Lye are some-  
what hazy, has got the pump of Imitation  
so largely developed, that he has tried his  
hand on the majority of popular articles which  
have been brought out for the last few years.  
This imitator, this borrower of other people's  
brain, trading on the reputation of an old  
established house, of which, by a strange  
dispensation of Providence, he has got the  
management, is pointing off his Extract on  
the public in place of the genuine. Pur-  
chasers will notice that the "genuine" has the  
subscriber's address stamped on each tin. For  
sale by all the leading Druggists and Grocers  
throughout the Dominion.

The Army Bill in the Commons.

HOUSE OF COMMONS.

LONDON, June 8.—The House of Commons to-night engaged in a long debate on the army regulation bill.

Mr. Cardwell defended the clause abolishing the sale of military commissions.

An incidental vote, while it did not decide the question of abolition, showed that the Government had a majority of 177.

THE ARMY BILL.

The reason for the Army bill as passed is as follows:—Mr. T. Lonsdale, a Member, by Compulsion out of Countess, bred in France, six years, first, H. M. Delamare's of Verdure, by Second Australian out of Vermelle, 3 years old, second, Mr. John Smith's 2nd of Rothwell, by St. George, out of Katherine Logie, 3 years, third, Seven ran.

TURKEY.

Great Britain in Constantinople.

LONDON, June 8.—A despatch from Constantinople, dated yesterday, says that fire broke out that morning simultaneously at two places, and at once time 200 houses were in flames. Fortunately, the wind was light, and there was a prospect of getting the conflagration under control. The damage done already was very heavy. The fire is supposed to have been the work of incendiaries.

American Despatches.

Brental Scene at a Prize Fight.

One of the Principals Badly Treated.

RIN, Pa., June 9.—Another prize fight took place today within the city limits, on the ground of Ryan &amp; McCullough. In a contest three weeks ago, Bob Conway, of Erie, and Buffalo, from Buffalo, were principals. The contest was a close one. Two rounds were fought, greatly to the advantage of Buffalo, who, on the third, drove his Erie bruiser into a corner and was there vigorously attacking him. Buffalo, who was a friend and backer of Conway, drew an iron rod used for coupling cars and made him a terrible blow on the head, knocking him senseless and opening his skull to a horrid gash. A majority of the crowd were Erie men, and the foreigners did not defend their fallen chief, so no war was created. The referee decided a foul and the fight ended. Buffalo was given medical assistance, and this evening left town. No arrests have yet been made.

Afternoon Despatches.

The Very Latest.

The supplementary elections to the Assembly are fixed for the 9th July.

The minutes of the previous session were read.

## MORNING SESSION.

in the Church of England by an attack and devoted mother in England. At years of age he came to Canada. He had been led to form an unfavorable opinion of the Methodists, but he had attended class meeting, where he was converted and where he had seen what he had often read of in his prayer book, a communi-

home by his friends, and he had since then resolved to devote his life to the ministry.

JOHN McCALLUM had much to share with the two brothers who preceded him knowing that he had been cradled in the Church. His needs of religion had been implanted in his breast. He did not know as was so long ago. At the age of 13 he himself a ruined, lost sinner, but God came to him and saved his soul. He was witness he received them as a child of God had never departed from him. His experiences had been varied. He had been a slave, a convict, a convict, his all, to the work of God. He had had the third chapter of Ezekiel before him. He might not have been there to-night. He might not have given him a new heart, and he felt hungering and thirsting after righteousness. He felt that he might not keep him holy, that he might not have Christ and Him crucified.

JOHN McCALLUM could not claim the same as the other two. He had no living of a pious mother. He was as he could do to remember her name. Were he to become a cataway, he could not have been there to-night. He had been converted to God. Three days after landing in this country he beheld his father.

had been converted at a camp meeting in the Merrickville Circuit, and had won for himself a reputation as a zealous and fervent and Perth District, and he thanked God his labors had not been in vain. His greatest ambition was to be a useful Methodist preacher.

THE PRESIDENT, in introducing the candidate, said he was one who was endeavouring to qualify himself for the work of preaching to the natives of the Land of the Reformation.

CHARLES S. EBY, thus introduced, as he descended from Methodist parents, he did not remember the time when he saw or heard of any other religionists. His great ambition was to reach perfect height. He did not remember any appeal to the Ministry, but had a conviction

years previous to entering on his present station, been endeavoring to lead some converts to the Peel Circuit. Christ had been blessed with him, and he had entered upon the work as a Minister there. He had been preaching the word of God to the French and German. He had, however, been on the sadder's bench commenced the study of these languages, by mailing his horse to the wall, and receiving many of his lessons in the language of the French students in Victoria College, where he should have been taking his dinner. There was no power in his preaching that did not flow from the cross. He had been afraid and disappointed if called to preach to the heathen, but he had been a sinner to continue through a long life.

The choir then sang, with due emphasis, the 43rd hymn.

The next candidate was

THOMAS JACKSON, who said that he had nothing special to mention as he had

brought at an early age—13 years—in connection with the Wesleyan Church. For two or three years after entering the Ministry he was subjected to strong temptations, and frequently doubted the truth of the Bible, but through the Divine Spirit he was brought to know that religion was not solely a system of emotion. He thoughtfully considered the question, and finally came to believe that all these Christian ministers, who preached Christ's Kingdom, could not be deluded.

During the latter years of his connection with the Christian Ministry he was firmly impressed with the conviction that he was a child of God. He could not point out the definite time when it pleased God to call him to this blessed work; but he remembered that he received the first impulse to action in the delivery of ahortation from the precious Gospel of Wesleyan Methodist Minister. Being prevailed upon to devote his whole soul and time in the advocacy of Scriptural truth, he entered upon this work, first obtaining the persuasion and sanction of his elders. He thankfully acknowledged

aiding him to more successfully prosecute the labor of love, and his earnest prayer was that he might be enabled to continue with greater zeal in humbleness and simplicity for the sake of Jesus.

John Wilson felt happy to express thankfulness for appearing as he did—applicant for consecration and ordination. When a boy of 10 years, he in company with a number of others, received the impressions of christianity in the night of the Town of Cobourg, and, literally speaking, his experience thus far differed little from that of the gentlemen who preceded him. For several months he wandered from the Almighty Father, but with a strong conviction weighing on his conscience, he was gradually induced to serve and fear God. Advancing

matters, by a pious mother, but all silent death removed her from his presence, her teachings kindled from a spark to an unquenchable flame, the result of which was the ultimate conversion not of himself, but the whole household.

The President stated that time would permit of their proceeding further with part of the services; but there was on-

—one who, since the opening of Conference had consented to go as missionary to the west, British Columbia.

Joseph Hall came forward, and after saying to express his gratitude to God for the satisfactory acceptance to the ministry, said he felt rejoiced that the light of God's truth had shined abroad in his heart; that through Christ he had redemption and forgiveness of sins.

and that the blood of Jesus cleanseth  
all iniquity. From his earliest recol-  
lection he was the subject of much religious train-  
ing, however, for years he resisted conviction  
arising therefrom, and his hours by day  
by night were attended with apprehension  
of his guilt and unworthiness. In the month  
October 1861—10 years since,—his con-  
victions rose higher and higher, until at length  
he was constrained to yield to the influence

of the holy spirit. A sermon preached on the text "Prepare to meet thy God," expelled all doubtfulness; he could no longer treat the divine commands with impunity, throwing off that restraint which had previously characterized his actions, he determined to discharge those duties pertaining to his office, faithfully and to the utmost of his ability. He signified his intention of giving himself to God; at a subsequent class-meeting

which he vigorously rebuffed, he was encouraged, and embarked upon the apparently hazardous expedition, occasionally encountering difficulties, so vexing as to almost tempt him to abandon the adventure; he was so tempted and shaken in confidence, but by the guidance of the omnipotent hand surmounting every obstruction. He could now pleasantly recount the incidents of the past year, and could gladly observe that each succeeding year has been brighter than the preceding, to wit: the extreme solemnity of his no-

## RAILWAY ACCIDENT.

FOUR LIVES LOST.

(Via Dominion Line.)

GRATON, June 11. A horrible accident occurred at 8 o'clock this morning, by which three lives were lost. A train coming from the East was struck by a freight train standing at the station, and a large number of immigrants, crowded in the freight train, were killed or injured. The freight train was standing at the station, and the passenger train was coming from the East. The freight train was struck by the passenger train, and a large number of immigrants, crowded in the freight train, were killed or injured. The freight train was standing at the station, and the passenger train was coming from the East. The freight train was struck by the passenger train, and a large number of immigrants, crowded in the freight train, were killed or injured.

The Express train from the East had not arrived from the East more than two minutes before the collision took place. The timely interference of young Mr. Allan, who, owing to great presence of mind, prevented a still more horrible disaster. The young man seeing the train coming switched it off on the track where the freight train was standing, and thus saved the Express. Two more lives were given to him by his timely action.

The wounded immigrants became the conductor and engineer. He says they were running the train faster than its usual speed. The train can be attached to the station Agent.

Mr. Willoughby, of this village, was quickly at the scene of the accident. Dr. Clark and Wade, of Cobourg, have since arrived, and are looking after the wounded.

The name of the conductor is Cameron; he is from Toronto. The engineer's name is Dedie, supposed to be from Quebec. The names of the immigrant and French are unknown at present.

N. B.—The injured French has since died.

## FURTHER PARTICULARS.

The reader of today gives the following additional particulars.

From later information received in this city (Toronto), respecting the accident, we are referred to, it appears that the conductor of the immigrant train, whose name is Harry Ross, received a telegram at Cobourg, that his train would cross the freight train, which was ahead, at Graton. Knowing that the express was in front, he was anxious to keep as close after it as possible; he therefore got upon the engine with the driver, and on nearing Graton, where they were not supposed to stop, the express train was observed to be standing on the line. It being foggy, the express train was not seen until the immigrant train was close upon it, and too late to stop. Mr. Allen, above referred to, and a young lad, who was standing on the platform of the station, observed that a collision would take place with the express, with great pressure of mind turned the immigrant train off on the siding on which the freight train was standing. By this means he prevented the immigrant train running into the rear of the express to which was attached a Pullman Car, probably saving the lives of many lives. As soon as the telegram announcing the accident was received, Toronto yesterday morning a special engine was sent for the scene of the disaster, arriving on board, Mr. Gregory, Assistant Superintendent, and Mr. E. S. Stephens, Traveling Agent.

The inquest was held at Graton yesterday morning, before Coroner Mason of Cobourg, and a verdict returned to the effect that the deceased met with their death through the negligence of the conductor and engineer.

The immigrant who was killed, is supposed to have been either a Dane or Swede, and had a ticket for Milwaukee. He was killed at Graton. The other immigrant, who was seriously injured and forwarded to his late home at Brockville. The bodies of the engineer and driver arrived in Toronto in coffins by the special train last night at 11 o'clock, and were forwarded to their late residences.

our Indian Troubles.

INDIAN RIVER UPON THE SHIP CARPENTERS AT LAKE SHELDONWATER—THE BOAT BUILDERS DISSENTING, TARA BOATS BURNED AND TOOK CAPTURED.

From the Toronto Telegram's Correspondent.

A report has prevailed in the city for some days past that the Indians along Dawson's route has risen and committed a series of outrages. After several inquiries, attempts to come at the truth of the story we received the following despatch from a correspondent at Duluth on Saturday night:

Duluth, June 10th.—A report reached here on Wednesday, which was confirmed this morning, that a body of Indians made a descent on the boatbuilders at Lake Sheildowater, drove them off, took their tools and burnt several of the new boats, before breaking up and burning others in course of construction. The boats were being built for the Lake of the Woods and Ransy Lake, under the charge of Mr. James Dick, (brother of Captain Dick of Toronto) to whom the contract had been awarded. The damage done has not been estimated. Nobody was hurt. The carpenters and others employed at the boats have left, and will arrive at Collingwood on Monday or Tuesday. No reason is given for the outrage.

Canada Presbyterian Church.

QUEBEC, June 9.

Rev. David Inglis, M. A., was elected President for the vacant chair of Systematic Theology in Knox College, by a vote of 59 for Mr. Inglis, and 50 for Rev. Wm. Gregg, M. A. The choice was then made unanimously.

Dr. Tapp submitted a report received from the joint committees which met in Montreal in September last. This committee was composed of representatives of the Presbyterian Churches of the Lower Provinces, the Presbyterian Church of Canada in connection with the Church of Scotland, and the Canada Presbyterian Church.

The assembly resolved itself into committee of the whole, and spent the afternoon in discussing the basis of union.

The Rev. Wm. McLaren submitted the report of the Foreign Mission Committee, showing that the receipts of the past year have been \$5,312.62; and though the contributions have increased, there is still a deficit on the fund to the amount of \$1,979.46.

## Morning Despatches.

The Washington Treaty.

New York, June 12.—The World's Washington dispatch says: A telegram was received here to-day from London by a high official, and that the Anglo-American treaty with Her Majesty's ratification will be sent to Parliament on Monday. It is understood in London that Disraeli, after full conference with Sir Stafford Northcote, has determined, as leader of the House of Commons, to resist the treaty, and to refuse to attempt to pass any criticism upon it, to a point even of debate. The information is regarded here as entirely trustworthy, and as settling the question, if there ever was any question as to the reception of the treaty in Great Britain.

## CONCENTRATED LYE.

A MONSTY the many im-  
itations of this cele-  
brated article is one by  
a Druggist in Montreal,  
for which he has borrowed  
the name Extract of Soda—and  
by the way, perhaps he can  
sell it as well as what he  
traded.

Well this individual,  
dealer of Montreal and Tem-  
ple, has got the bump of imi-  
tation so largely developed, that he  
has been brought out to the last few years  
this imitator, the inventor of other people's  
brains, trading on the reputation of an old  
established house, of which, by a strange  
disposition of Providence, he has got the  
management, is painting off his Extract on  
the public in place of the genuine. Purchas-  
ers will notice that the "genuine" has the  
substantial address stamped on each. For  
sales by all the leading Druggists and Grocers  
throughout the Dominion.

**BRASIL.**

Proposed Emancipation of Slaves.

Bill for that Purpose in Parliament.

Prospects of its Passage.

Lisbon, June 13.—Rio Janeiro dates of May 23 state that Deputado de Caxias, on the part of the Brazilian Government, has presented to the Imperial Chamber an elaborate and carefully prepared Bill for the emancipation of all slaves belonging to the Crown. The Act, if it becomes law, manumits thousands now toiling in the famous diamond mines in the Province of Minas, and also those engaged in the construction of roads, and other public works at Rio de Janeiro, Bahia, Pernambuco and Maranhão, besides a large force employed on Government railways.

A provision of the Bill also releases convict slaves on the Island of Fernando de Noronha, after seven years' servitude, their owners to be indemnified from the Imperial Treasury. The Bill meets with determined opposition. It is said, by the Conservatives in the Brazilian Senate, but the Liberal party is strong, and will likely carry this measure in the Lower House, where there is an overwhelming Liberal majority. The Emancipation Bill, which has always been a pet measure of Brazil's Democratic Empire, will encounter but feeble opposition. The great objection to the measure appears to be not so much to the justice of the Act as to its hasty enforcement. The law, as it now stands, provides a system of gradual emancipation for slaves belonging to private individuals, while the Emperor's Bill decrees immediate manumission to all slaves owned by the Crown Imperial.

**LIFE ASSURANCE COMPANY**

ESTABLISHED 1847.

THIS unprecedented success of this Company may be seen by the following comparison of the new transactions of each year—

1871, about 1,550 Policies for \$2,350,000

While this extraordinary and gratifying increase of the business of the Company was lately able to divide amongst its policy holders, this is doubtless also to be attributed to the fact that it is a strictly Canadian Institution, charging low rates of premium, and offering every reasonable advantage which prudence and safety can suggest.

STOCK'S

Celebrated Extra Machine Oil,

NOW used in nearly all the large Steamships in Ontario, and gives general satisfaction. It never clogs or turns in the coldest weather.

The following are a few from the many testimonials to its excellence:

JOSEPH HALL WORKS.

We have run our large 14 foot, Iron Plumber seven days with one of Stock's Machine Oil. We want nothing better than a Lubricator.

F. W. GLEN, President.

I will run Stock's Oil against any other Oil in the Dominion. I prefer it to either Sperm or Olive Oil, or any other used on any Machinery.

A. HENDERSON, Foreman Hall Works, Ottawa.

I find Stock's Oil to be the best Oil I have ever used in my Flouring Mill.

MOSES SMITH, Dufferin's Creek.

I would rather have Stock's Oil than any I ever used in 20 years experience.

GEORGE BLAKE, Foreman Brown & Patterson's, Whistler.

I have used Stock's Oil and find it excels all I have ever used in 40 years experience. I have used Olive and Castor Oil previous to using Stock's.

JACOB STATTON, Greenwood, Ont.

I use Stock's Oil on my Milling Machinery 4,000 times per minute, and it gives me good satisfaction.

JAMES CHURCHILL, Bangor, Ont.

Equally strong testimonials have been received from the following parties:

Thompson & Werts, Toronto; Tait, Date & Rodden, St. Catharines; Harris & Son, Beamsville; J. Raymond, Toronto; Watson & Quarter, St. Catharines; J. Frost, St. Catharines; J. Collier, St. Catharines; Fraser & Co., Coburg; Paxton, Tait & Co., Port Perry; Toronto Leader Office, Toronto Telegraph Office, Toronto Globe Office, Hunter, Ross & Co., Prince George, Ont.; Clegg, Clark & Co., Toronto, and several others.

The above ought to be sufficient to convince owners of, or persons running machinery, of the necessity of using Stock's Oil, both on account of the superiority over any other oil, and its cheapness—the price being moderate.

**EQUALIZATION.**

Committee on equalization met at 10 o'clock. The Warden stated that

...ey	Assess

The Warden thought it was

Dungannon was only \$400.00  
Mr. Enno would have been

that Madoc was the nephew. If the equalization would be compelled by litigation, the Warden held to his mere expressing his respect, and deprecated the least of litigation. If the matter would, the sooner the better. Mr. Tait claimed a reduction in the equalization of Farradon, on account of the late date. The assessor in the end, however, allowed a little too high.

Mr. Diamond said if this would move that Thurlow be paid \$10,000.

Mr. Ashley was willing, if satisfied, he was content. But he had reduction made it so that Mr. Flint thought Hurd and Joe were both assessed too high for a poor township, and was not satisfied, but he had not grumbled. He had moved last year, and he thought that \$12,000 was struck too high, but he did not do this year. If there was to be a reduction better come at once. If it was taken off one place, other places would be taken off.

and the equalization would go down considerably. The only way necessary to add a dollar to bring it up again is what Hantingdon should pay at this time.

The Warden was satisfied the action was just and equitable. Mr. Emo was satisfied that the money in the County was assessed fairly. He would carry the Hantingdon assessment into the next year and not reduced.

The motion was then put and

The Committee rose and reported on the motion for the adoption of the report. Mr. Emu moved, seconded by Mr. Flint, that the report be referred to the committee, for amendment. The amendment was put and the report adopted.

Midnight Despatches.

FRANCE.

Paris, June 23 (cable).—The Duke of Aumale has been arrested, and is expected to be taken to the front.

It is said that Marshal McMahon has relinquished his intention to resign the command of the army.

The garrisons left Paris yesterday for the month of the Seine.

The mortality is increasing in Paris in consequence of the arrival of the members of the garrisons from the eastern provinces. Neither the army nor the population, however, are affected.

It is said that Gambetta refuses to acknowledge the mandate of the Assembly, accompanying his refusal with the declaration that the Assembly ceased to exist when it voted to ratify the treaty of peace.

## Midnight Despatches.

Paris, June 23.—A letter from Louis Blanc is published, declaring that the Republican party, having a free, must become a power.

The Liberte reports that a violent quarrel took place yesterday on the boulevard between the Communists and a party of Prussians. The Communists are reported to have been the aggressors. In consequence of the affair Marshal McMahon has requested the Prussians to remove their officers from entering the city. The stringency of the passport system has been increased.

Police, formerly Prefect of Police and Secretary to the Emperor Napoleon, is expected to return to Paris.

There has been a great deal of excitement in the army of the history of the revolution and the empire.

The (Gazette) announces that the elections for the Chamber of Deputies will be held on the 10th of July.

Marshall McMahon has issued an order ordering the former regulations permitting the sale of intoxicating liquors. By the new order retailers are forbidden to keep on hand at one time over 200 litres of such material. All persons who disobey this mandate will be tried by a court martial. Manufacturers and dealers in arms and ammunition are also required to submit to restrictions upon the fabrication and sale of these articles.

The French mail service for India and China will be re-established in July, leaving Marseilles once a fortnight on Sundays.

## Imperial Parliament.

Proceedings of the House of Commons.

London, June 23.—In the House of Commons today the Bill for the amendment of the law relating to the duties of the Customs and Excise was read a second time. A motion was made to amend the Bill so as to provide for the duties of the Customs and Excise to be paid by the importer, and not by the consumer. The motion was carried.

It is understood that Sir Edward Thom

## The Republican candidate for President in

1872 may attempt to relinquish their hope

of being elected President. A year is quite

long enough to devote to the making of

a President; and the beginning of another

contest soon after one has been closed by

an election is one of the most inevitable

nuances of American politics. We cannot

realize any practical good to be derived

from a newspaper presentation and discus

sion of the merits of possible candidates a

full year in advance even of a nomination.

—The

Demand for Labor.

A thorough knowledge of able-bodied men

are arriving weekly from the old country,

and are distributed to every part of the

Province, the demand for labor is still

unfilled, and is still unsatisfied.

To show the demand for labor in

Ontario, it is stated that in one day seven

hundred people arrived at the Emigration

Depot, Toronto—the passengers of the

Nicer and Scandinavian, on Thursday, the

last. All were breakfasted in the course

of an hour, and by 6 p.m. of the same day

600 of the whole number had been dis

tributed, where ready employment was

waiting for them—a portion of them to the

railways now in course of construction, and

others to the farming districts. Since then,

on several occasions, from three to four

hundred have arrived and been distributed

in one day. Such are the facilities of this

country for disposing of immigrants.

The demand for labor is still

increasing as the harvest for labor is

## FRANCE.

PARIS, June 25.—The Republican pamphlets are mainly addressed to and intended for the use of the ignorant electors, and are to a great extent devoted to praise of the Imperial Government to the Catholic Church.

The Communists are still placarding Paris with placards.

One secret press has been seized.

Another Frenchman had recently broken out in Strasbourg. Even the women were engaged in it, and general riot was upon their feet. Many arrests were made and quiet restored.

There has been a visit to Marshal McMahon. President Thiers intimates that treaties with foreign powers must be modified, owing to the altered circumstances of France.

The Comte de Paris arrived to day and will call on President Thiers to-morrow. He has sent M. Escadieu to President to make arrangements for a visit of the Duke of Chartres to Paris and fix the date when both Princes may have an interview with Thiers.

## American Despatches.

NEW YORK, June 25.—There is nothing additional to that already telegraphed in the following special, but it is later received, regarding the conflict between our forces and the Koreans.

LONDON, June 25.—A despatch to the Telegraph dated at Seongju to-day states that a naval force which was recently ordered to land on the Korean coast, failing to receive any response for the outlying, decided upon a course of measures. According to the report, the Korean stronghold on the island of Kinkang, which they captured and destroyed after a desperate struggle. The losses sustained by the Koreans were very large and killed and wounded white troops of the Americans consisted of one officer and two men killed and seven wounded.

NEW YORK, June 25.—The Tribune's Washington despatch says it is almost the universal opinion here in regard to the President's well-aided, that matters have gone so far that though the President might sincerely desire it, a reconciliation will be impossible.

Portland, June 25.—This afternoon a collision occurred on the Portland & Ogunquit Railroad, near Otter Pond, between a construction and an empty passenger train. Six laborers were much injured, two of it is supposed, fatally.

## Afternoon Despatches.

## The Very Latest.

## DESPATCHES TO 4 P. M.

PARIS, June 25.—The Republican Committee have been unable to agree upon a combined list and publish several electoral lists.

Marshall McMahon has declined to be a candidate for the Assembly for Paris.

VERMONT, June 25.—The trial of Rochester is reported for Monday next.

The assembly yesterday declined the proposition of a law for the decentralization of the government department.

ARRESTS OF COMMUNISTS CONTINUE. M. M. Combes and Fauts have been committed with their accomplices.

BERLIN, June 25.—Bismarck as Chancellor of the Empire has called in the first lists of fifty million of German bonds the interest on which will cease on 1st January next.

## Business Notices.

The County Council at a late sitting had quite an argument about taxing peddlers, and some of them admitted that they had been badly fooled by them. We think a good many of their constituents will be similarly fooled by that class of traders.

How to be HANDSOME—Nobody denies the great power any person has who wears a good face, and who attracts you by good looks. Now, not every one can have good features, they are as God made them, but at least any one can look well especially with good hair. If your system is in the best condition, it is the best medicine to take the Great Blood Purifier, and Pills, for they purify and enrich the blood, and will make you sound in every particular, no matter what your ailment may be.

The age of railroads and the telegraph give rise to fast living, and increase the desire to make rapid fortune, and to get rich to get rich, and others to be at least equal to their neighbors. In order to keep up with the age and unusual contest, it is necessary to be at the utmost power, while humanity is rendered an easy prey to disease. The Heart, Liver, Stomach, Lungs or Nervous System becomes afflicted, and sickness, in the form of Heart Disease, Jaundice, Dyspepsia, Bronchitis, Consumption, Paralysis or Mania, is the result. The use of Folio's Compound Syrup of Hypophosphites will enable the mind to sustain a greater strain unaided by conflicting thought and unaided by continued study. It imparts power of concentration. What before seemed difficult of solution becomes comparatively easy, and the body is physically stronger under its use.

## TEN DAYS ONLY.

MRS. & MISS MUIR'S Bankrupt Stock of Millinery, from 999 Notre Dame Street, Montreal, consisting of Flowers, Feathers, Bunnies, Hats, Hat and Bonnet Shapes, Lace, Ribbons, &c., will be sold off at the Commercial Hotel, during the next ten days at very low prices.

Parties requiring anything in the above line will be sure to get them at less than half their value.

## CANADA LIFE ASSURANCE COMPANY.

## ESTABLISHED 1847.

The unprecedented success of this Company may be seen by the following comparison of the net transactions of each year:

1868, 447 new policies for \$57,894

1869, 891 " " 1,169,550

1870, 1,692 " " 1,584,406

1871, about 1,550 Policies for \$2,350,000

While this extraordinary and gratifying increase of public confidence is continued, due to some measure, to the large profits the Company has lately been able to distribute to its policy holders, this is doubtless also to be attributed to the fact that the Company is a Canadian institution, charging low rates of premium, and offering every reasonable advantage which prudent and sagacious management can give.
